### OBJECTIVE

---

With a strong passion for Software Engineering, particularly in web development, I'm currently focused on mastering frontend development. Once proficient, I aim to explore backend development. My goal is to apply my skills to real-world projects, continually expanding my expertise and gaining hands-on experience. Ultimately, I aspire to become a versatile software engineer specializing in web development, adept at tackling diverse challenges in the tech landscape.

### EDUCATION

---

#### Computer Engineering

2022 – 2023

University of Aleppo

Transitioned to software engineering after one year to pursue a stronger alignment with my passion for Web Development.

#### Bachelor of Science in Information Technology Engineering

04/2024

Syrian Virtual University [↗](#)
